THE returns of the late census show that between 1870 and 1880 the number of farms in Kentucky increased over sixty thousand.

THE annual re-union of the old soldiers, survivors of the war of 1812, will be held at Paris, on Saturday, June 17th. A dinner will be given them by the city, and as usual, the railroad companies will furnish free transportation to the old soldiers and their attendants.

In Columbus, Ohio, two saloon keepers who violated the Sunday law (one of them having sold nearly two hundred kegs of beer) were brought before the court. They pleaded guilty and were fined \$10 each and sentenced to six hours imprisonment. The leniency of the sentence causes much indignation.

COMPLAINT is made in Republican quarters that Lynch, of Mississippi, who was recently seated by a Republican majority is the only negro in Congress. Why subject of naturalization, the construction don't the northern Republicans send some? There are many black men in the northern reported, against the admission of Chinese states as fit to represent that section as the to citizenship. In regard to section sevwhite Republicans that have been elected. enteen, the words "Chinese laborers," By all means let the Republicans of the wherever used in the treaty have been north send some negroes to Congress.

Jeffersonian Principles.

What the Jeffersonian principles that we have heard so much about really are, may be gathered from the following extract from Mr. Jefferson's inaugural ad-

"About to enter, fellow-citizens, on the exercise of duties which comprehend everything dear and valuable to you, it is proper that you should understand what I deem the essential principles of our government, and consequently those which ought to shape its administra-tion. I will compress them within the narrowest compass they will bear, stating the general principle, but not all its limitation.

"Equal and exact justice to all men, of whatever State or persuasion, religious or political, peace, commerce and honest friendship with all nations-entangling alliances with none; the support of the State government in all their rights as the most competent administrations for our domestic concerns and the surest bulwarks against anti-republican tendencies; the preservation of the general government in its whole constitutional vigor, as the sheet anchor, of our peace at home and safety abroad; a jealous care of the right of election by the people—a mild and safe correction of abuses which are lopped by the sword of revolution where peacable remedies are unprovided; absolute acquiscence in the decisions of the majority, the vital principle of the republic, from which there is no appeal but to force, the vital principle and immediate parent of despotism; a well disciplined militia, our best reliance in peace and for the first moments of war till regulars may relieve them; and supremacy of the civil over the military authority; economy in the public expense, that labor may be light-burdened; the honest payment of our debts and sacred preservation of the public faith; encouragement of agriculture and of commerce as its handmaid; the diffusion of information and the arraignment of all abuses at the bar of public reason: freedom of religion, freedom of press, freedom of person under the pro tection of the habeas corpus, and the trial by juries impartially selected—these principles form the bright constellation which has gone before us, and guided our steps through an age of revolution and reformation. The wisdom of our sages and the blood of our heroes have been devoted to their attainment. They should be the creed of our political faith; the test of civil instruction; the touchstone by

THE Flemingsburg Times says: On the train Tuesday night we met Miss M. J. Knapp, daughter of Jas. W. Knapp, of this county, who was escorting home the remains of her murdered brother, Hiram R. Knapp. The particulars of the sad affair are as follows: The deceased had for the past four years been employed by Messrs. Churchman & Jackson, owners of Beech Grove farm, near Indianapolis, Ind., and for some time past he has held the place of foreman. On Monday morning as the hands on the farm were harnessing their horses to go to work, a young man named Chas. Hildreth insisted on putting THREE thousand bushels of barley were on his horse a set of harness which did sold at Lexington, recently, at 85 and 90c. not belong to it, and a quarrel resulted, ending in blows. Hildreth was worsted and the parties were separated, Knapp. going about his other duties, while Hildreth, with murder in his heart, went to his room and armed himself with a revolver and followed Knapp to the dairy and just as he (Knapp) started down the steps into the dairy, unconscious that he was pursued by Hildreth, the latter fired at him, the ball taking effect in the left temple, causing death in about an hour. cents a yard. Full stock of SUMMER DRESS The murdered man never spoke after he was shot. The murderer was arrested and lodged in jail. The bereaved family have our sincere sympathy in this their sad bereavement.

> The President in serding to Congress his approval of the Chinese Bill, explains that by making the period of suspension ten years instead of twenty, the difficulty is avoided which compelled him to refuse his assent to the former measure. The sixteenth section of the bill effects no important change in existing law upon the of the statute having been in the only case construed to mean both skilled and unskilled laborers.

Simmons' Medicated Well-Water.

Col. Simmons has received the following certificate to which he calls the attention of all persons suffering from diseases of the kidneys:

MAYSVILLE, KY., March 12, 1882.

Mr. Simmons—Dear Sir: I had an affection of my kidneys for two years and tried the regular medical fraternity without any good results, and have been relieved by the use of your water. If you will put salt in it in the morning it produces as good cathartic results as Blue Lick Water. You can use this in any way you wish for I vouch for the truth of it. Yours, CHARLES B. HILL.

What Gamblers Call a Shiner.

A silver dollar with a bit of concave mirror set into one side is by gamblers called a shiner. By laying it among his pile of coin and dealing over it the operator can know what every player holds for that deal, the cards being reflected in miniature. A member of the Mining club of Leadville has been caught using a shiner. By means of it he won \$2,500 in a night at poker.— Denver News.

PILES! PILES! PILES?

A Sure Cure Found at Last-No One Need Suffer!

A sure cure for blind, bleeding, itching and ulcerated piles has been discovered by Dr. William, (an Indian remedy,) called Dr. Williams' Indian Ointment. A single box has cured the worst chronic cases of twenty-five or thirty years standing. No one need suffer five minutes after applying this wonderful soothing medicine. Lotions instruments and electuries do more harm than good. Williams' Ointment absorbs the tumors, allays the intense Itching, (particularly at night after getting warm in bed,) acts as a poultice, gives instant and painless relief, and is preparded only for piles, itching of the private parts, and nothing else.

Read what the Hon. J. M. Coffinberry, of Cleveland, says about Dr. William's Pile Ointment; I have used scores of pile cures, and it affords me pleasure to say that I have never found anything which gave me such immediate and permanent relief as Dr. Williams' Indian Ointment.

For dizziness, rush of blood to the head tending to apoplexy, dyspepsia, fever and ague, dropsy, pimples and blotches, scrofulous humors and sores, tetter, ring worm, white swelling, erysipelas, sore eyes and for young men suffering from weakness or debility caused from imprudence, and to females in delicate health, Frazier's Root Bitters are especially recommended.

Dr. Frazier: I have used two bottles of your Root Bitters for dyspepsia, dizziness, weakness and kidney disease, and they did me more good' than the doctors and all the medicine I ever used. On account of the continued illness of Rev. M. D. Reynolds, pastor of the M. E. the church to-morrow morning or in the evening.

THE paying done in Patton alley between Second and Front street, by Messrs. Cooper, Cox and other property holders, is about the smoothest and best job of street paving ever done in this city. It would be well if all future work done upon our streets, could de done with the same skill with which this job has been completed.

Here's News.

Says the Flemingsburg Times:

Maysville now sees that the Cincinnati Southeastern Railroad Company mean business and that they mean to build the road from Augusta via. Johnson to Flemingsburg, and in order to defeat this they are encouraging the people along the proposed route to ask exorbitant figures for the right of way, hoping thus to be able to induce the company to build via. Maysville. The people along the line should look to their own interests and not allow Maysville to pull the wool over their over the contract of the contract eyes. She does not want the road built it it is not built through Maysville, and if it is built that way it will be the fault of those who wish to make the company pay them extravagantly for a right of way.

The prospects for a highly successful meeting of the Trotting Club next week, are very encouraging. Every class has been filled, the entries including many of the celebrated trotters of Kentucky, Georgia, Tennessee, Indiana, Missouri, Ohio and New York. The track will be in fine coudition by the opening day, provided there is no more rain, and it is announced positively that every race published in the programme will start. THE MOUND BUILDERS.

What is Enown and What is Guessed of the Prehistorie Americaus.

[New York Times.] In a lecture before the New York Academy of Science, on the prehistoric races of the American Continent, Professor John S. Newberry furnished, perhaps, the finest and most lucid summary that has yet been given of the present state of our verified scientific information as to the mound builders, the house builders, the Aztecs of the South, and the condition of the arts of civilization among these representatives of lost types. So many ingenious scientific romances have been elaborated by speculative antiquaries as to the origin of these races, and their possible relation to the prehistoric types of the Old Indispensible to Merchants Shippers World, that such a resume as Dr. Newberry gave of what is actually ascertained or fairly inferable from the data of mounds, pottery, inscriptions, textile fabrics, and other remains, is peculiarly valuable to the general student, who, bewildered by speculative theories cleverly interlaced with facts, and sadly puzzled by remote inference stated as verified information, finds himself without a starting point for the formation of an opinion. While not sharing in the fanatic enthusiasm that places these races in advance of the contemporary civilizations of the prehistoric races of Europe and Asia, and while taking no part in the endeavor to trace a relation between them, Dr. Newberry concedes their progress in certain arts and the magnificent scale upon which their public works were constructed. He regards the mound builders of the Valley of the Mississippi, among whom the symbolical form appears to have been neglected in the construction of their works of sepulture, and the races further West who built in the forms of birds and now extinct animals, as belonging to the same primitive stock, now probably represented by a few tribes of Western Indians-Indians so called for want of a better name, but differing in-ancestral descent from the savage hordes to whom that term has been appropriated as widely as the Arab differs from the Persian. Unfortunately for science, and, perhaps, for Dr. Newberry's view of the subject, the remains of textile fabrics that were buried in the mounds have been destroyed by time and dampness, with the exception of a few shreds, which have been preserved by the salts of copper generated by the utensils with which they were originally interred. These shreds are not sufficient to establish an identity of design between the textile products of the mound builders and the curious blankets manufactured by certain house building tribes extant at the present day. Evidences derived from physical structure are, however, by no means to be disregarded in such cases, and here the testimony is strikingly in favor of the hypothesis that the descendants of the mound builders are to be sought in certain types of so-called Indians in the far West. Dr. Newberry has made a large and valuable collection of the textile fabrics bearing upon the question, and it is a singular fact that the distaff in use among these tribes and the mode of weaving are exactly identical with those of the ancient races of the Old World. One must not be misled by such coincidences, which, though striking and curious, are, like philological analogies and resemblances of root words, to say nothing of designs in the decoration of pottery, insufficient grounds for the assertion of a theory. If, as prehistoric geographers contend, the area now occupied by the Indian Ocean was once the seat of a densely populated continent, it is very possible that some historical relation may be finally made out between the primitive races of the great continents on the surface of the globe, but at the present juncture, as Dr. Newberry shows, there is not even sufficient basis for the most shadowy impression to that effect.

WHEN Edmund Burke had once finished a brilliant oration in the House of Commons, another member, Mr. Cinger, feeling that he was bound to say something, but that he could not venture to compete with the preceding speaker, rose and exclaimed: "I say ditto to Mr. Burke."
